

Application No.: 09/258600
Group Art Unit: 1636
Docket No.: 50370-60637DIV (formerly CPI-012CP4DV)

REMARKS

Claims 43-109 are pending in the application. Claims 43 and 103-108 have been cancelled without prejudice or disclaimer, and claims 44-49, 52, 54, 56, 57, 61-63, 67, 69, 77, 85, 94, 96, 98 and 102 have been amended. Accordingly, claims 44-102 will be pending in the application upon entry of the instant amendment.

Claims 100, 101 and 109 are allowed, and claims 44, 45, 47, 53, 67, 68, 94, 95, 98 and 99 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Accordingly, claims 44-46, 48, 49, 52, 54, 56, 57, 61-63, 69, 77, 85, 96 and 102 have been amended to depend from allowed claim 100. Claims 47, 67, 68, 94, 98 and 99 have been rewritten in independent form including all of the limitations of the base claim and any intervening claims. No new matter has been added.

Amendment and cancellation of the claims here are not to be construed as an acquiescence to any of the rejections/objections made in the instant Office Action or in any previous Office Action, and were done solely to expedite prosecution of the application. Applicants hereby reserve the right to pursue the claims as originally filed, or substantially similar claims in one or more subsequent patent applications.

Applicants respectfully traverse all the rejections/objections of record as set forth in the instant Office Action. However, without in any way acquiescing to the rejections/objections and in order to expedite prosecution of the application, the claims have been amended as set forth above, thereby obviating all the rejections/objections of record. Applicants submit that claims 44-102 as presented herein are in condition for allowance.
